

Halo Series Small Fixed Node for Woven Track System, Black, IP20, DC24V

OVERVIEW

The S-TK-HA-SN-BK is a small fixed node designed for use with the Halo Series Woven Track System. Measuring 40 x 30 x 11 mm, this black PC-construction node provides a secure, fixed mounting point within compatible woven track installations. It is suited for commercial and residential environments including offices, hotels, apartments, retail spaces, and workshops.

The node operates at DC24V and carries an IP20 rating, making it appropriate for dry indoor applications. Rated lifespan is 20,000 hours. No LED, power, lumen, or beam angle data is specified for this component, as it functions as a mechanical fixture element within the track system.

This product carries a 2-year warranty. No third-party certifications are confirmed in the available documentation.
