

## Prolink Magnetic Track System Black End Cap with Input, 80 mm

### OVERVIEW

The S-TK-PL-EIN-CAP-BK is a black end cap with input connector for the Prolink magnetic track system. It is designed to terminate and feed power into compatible magnetic track runs, providing a clean, finished appearance at the track endpoint in commercial and retail lighting installations.

The component measures 80 mm in width and is finished in black to coordinate with matching track system components. No additional electrical or photometric specifications are confirmed for this accessory in available source data.
