

Magnetic Track Rail, Aluminium Alloy, 977 mm, Black, IP20 Indoor

- Aluminium alloy construction with black finish
- Rail dimensions of 977 × 27 mm
- IP20 rated for non-waterproof indoor environments
- Compatible with Triac and 0-10V dimming systems
- Wall or pole mount installation
- 5-year warranty, rated for 50,000-hour LED lifetime

OVERVIEW

The S-TK-PL977-BK is a magnetic track rail designed for use with compatible Prolink Track System components. Constructed from aluminium alloy and finished in black, it is intended for indoor commercial and retail lighting installations where magnetic track-mounted fixtures are required. The 977 mm rail length suits standard bay and run configurations in track lighting layouts.

The rail supports Triac and 0-10V dimming control and is rated IP20 for non-waterproof, indoor-only environments. It mounts to walls or poles and is built to support magnetic track fixtures rated for 50,000 hours of LED lifetime.

The rail carries a 5-year warranty.
