

## 3-Circuit Track Rail, 10 ft., White

### OVERVIEW

---

The S-TK3C-10 is a 10-foot, three-circuit track rail designed for commercial and industrial track lighting installations. It accommodates three independently controlled circuits, allowing separate switching or dimming of fixture groups along a single rail run. The white finish suits exposed ceiling applications in retail, office, gallery, and similar interior environments.

No electrical or photometric specifications are confirmed in the available source data for this rail. Contractors should verify amperage rating, conductor gauge, and compatible fixture head specifications with the manufacturer prior to specification or installation to ensure the system meets project load requirements.

No certifications, compliance listings, or warranty terms are confirmed in the available source data. Specifiers should request current documentation from Poli LED & Signs to confirm applicable listings and warranty coverage before finalizing procurement.
