

Track End Cap for 3-Circuit Light Track, Black

OVERVIEW

The S-TK3CAP-BK is a black end cap designed for use with 3-circuit track lighting systems. It serves as a terminal closure for open track ends, providing a finished appearance and preventing accidental contact with internal conductors. Suitable for commercial and industrial track lighting installations.

Constructed to fit standard 3-circuit track profiles, the end cap features a black finish that coordinates with matching black track components. It is intended for interior use and provides a secure mechanical fit to maintain the integrity of the track assembly.

No certifications, compliance listings, or warranty terms are confirmed in the available source data. Installers should verify compatibility with the specific track system prior to installation.
