

Recessed Track End Cap, Black Finish, for Recessed Track Lighting Systems

- Black finish matches recessed track lighting components
- Designed for terminal ends of recessed track runs
- Backed by 1 -year manufacturer warranty
- Provides finished, closed appearance at track ends

OVERVIEW

The S-TK3CAP-R-BK is a recessed track end cap finished in black, designed to terminate compatible recessed track lighting runs with a clean, finished appearance. It functions as a closure accessory rather than an active fixture, completing the visual line of the track and protecting the internal channel at the terminal end.

The cap is backed by a 1 -year warranty, consistent with other components in the recessed track lighting line.
