

## Black Lamp Holder for 3-Wire H-Type Track Lighting

### OVERVIEW

---

The S-TK3LH-BK is a lamp holder designed for 3-wire H-type track systems, providing a reliable mounting interface between compatible track fixtures and H-type track infrastructure. The black finish suits commercial interior applications where a clean, modern aesthetic is required.

This holder is compatible with 3-wire H-type track configurations and is intended for straightforward field installation. It accommodates various lamp types, allowing flexibility in fixture selection for a given installation.
