

## White Lamp Holder for 3-Wire H-Type Track Lighting Systems

### OVERVIEW

---

The S-TK3LH is a lamp holder designed for use with 3-wire H-Type track lighting systems. It provides a secure, reliable connection point for compatible track fixtures and is intended for interior commercial and residential lighting installations where H-Type track infrastructure is already in place.

Constructed from durable materials with a white finish, the holder is suited for flexible lighting configurations and supports straightforward installation within H-Type track layouts.
