

3-Way T Connector for LED Track Lighting Systems

OVERVIEW

The S-TK3T-BK is a 3-way T-shaped track connector designed for use with compatible LED track lighting systems. Finished in black, it serves as a joining component that allows a single track run to branch in three directions, supporting flexible layout configurations in commercial and industrial installations such as retail spaces, warehouses, and galleries.

No electrical or mechanical specifications are confirmed in the available source data for this SKU. Contractors and specifiers should consult the compatible track system documentation to verify current rating, voltage compatibility, and track standard (H, J, or L type) prior to installation.

No certifications, compliance listings, or warranty terms are confirmed in the available source data. Verification of applicable listings and warranty coverage should be obtained directly from the manufacturer or distributor before specifying this component in a project.
