

Magnetic Track Rail Splice Connector, Flush Mount, Aluminum, Grey Finish

- Flush-mount splice accessory for concealed track rail installation
- Constructed from aluminum for structural connection support
- Grey finish coordinates with magnetic track rail systems
- Supports wall or pole mount track configurations
- Suited for plastering and batch-finish flush installations

OVERVIEW

The S-TKFT-FPM-Z is a flush-mount splice accessory for magnetic track rail systems, designed for concealed installations such as plastering or batch finishing where the track must sit flush with the ceiling or wall surface. It connects magnetic track rail sections while allowing the rail to be recessed into the mounting surface for a clean architectural appearance.

Constructed from aluminum with a grey finish, the accessory is suited to wall or pole mount track configurations in commercial and architectural specification projects requiring a surface-free, integrated look.

SPECIFICATIONS

MECHANICAL

Finish	Grey
Material	Aluminum
Mounting	Wall/Pole Mount

APPLICATIONS

- Plastered ceiling track installations
- Flush-mounted magnetic track rail runs
- Commercial architectural lighting layouts
- Concealed track connections in retail interiors
