

Magnetic Track Rail X Horizontal Corner Connector, Plaster Mount, Black Finish

- Horizontal X-corner connector for magnetic track rail systems
- Constructed of plaster material for plaster-ceiling mounting
- Black finish for visual continuity with track fixtures
- Compact dimensions of 2.47 × 1.71 inch
- Wall/pole mount configuration for flexible installation

OVERVIEW

The S-TKFT-PM3-HX is a horizontal corner connector for magnetic track rail systems used in plaster-ceiling installations. It joins track rail segments at horizontal corners, enabling continuous track runs where directional changes are required in plastering mount applications.

The connector is constructed of plaster material with a black finish and measures 2.47 × 1.71 inch. It mounts to wall or pole surfaces, supporting integration into recessed or surface plaster ceiling track layouts.

SPECIFICATIONS

MECHANICAL

Product Dimensions	2.47×1.71 inch
Finish	Black
Material	Plaster
Mounting	Wall/Pole Mount

APPLICATIONS

- Plaster ceiling track lighting layouts
- Commercial retail lighting installations
- Office and hospitality track lighting systems
- Directional track corner transitions
