

Magnetic Track Rail L Vertical Corner Connector for Plastering, Black, 2.47 x 1.71 in

- L-shaped vertical corner configuration for magnetic track rail
- Plaster material construction for recessed, flush-finish integration
- Black finish for consistent appearance with track rail systems
- Wall/Pole mount type for plastering installations
- Compact footprint at 2.47 × 1.71 inch

OVERVIEW

The S-TKFT-PM3-VL is a vertical corner connector for magnetic track rail systems installed in plastering mount applications. It joins two track sections at a vertical corner, allowing a continuous recessed run to turn a corner while maintaining a flush ceiling or wall finish.

SPECIFICATIONS

MECHANICAL

Product Dimensions	2.47×1.71 inch
Finish	Black
Material	Plaster
Mounting	Wall/Pole Mount

APPLICATIONS

- Recessed ceiling track lighting corners
- Plastered wall track lighting runs
- Commercial construction magnetic track installations
