

Magnetic Rail 20 Style Plastering Mounted Track, 1M Aluminum

OVERVIEW

The S-TKFT-PM3 is a 20-style plastering-mounted magnetic rail track designed for recessed installation in plaster or drywall ceilings. It provides a flush, architectural finish suitable for commercial interiors where concealed track lighting is specified.

Constructed from aluminum, this rail accepts an engroove width ranging from 31.5 to 52mm with an engroove depth greater than 43.2mm, accommodating a range of plaster ceiling thicknesses. The rail is supplied in a 1-meter length.
