

Surface Mounted Magnetic Track Rail, 20 Style, 2M Aluminum Profile

OVERVIEW

The S-TKFT-SM3-2M is a 2-meter surface-mounted magnetic track rail in the 20 Style profile, designed for use with compatible magnetic LED track lighting fixtures in commercial and industrial installations. The aluminum construction provides a rigid, low-profile mounting solution suitable for ceiling or wall surface applications where recessed installation is not feasible.

The rail is fabricated from aluminum and measures 2 meters in length, offering a clean, continuous run for magnetic track heads and accessories within a 20 Style system.
