OVERVIEW

The SL-MS1 is an SMD 3535 LED solar motion sensor light designed for outdoor applications including gardens, patios, and driveways. It operates on solar power with a built-in motion sensor that activates the fixture only when triggered, reducing energy consumption and extending service life.

The fixture produces a cool white 6500K output and features a black exterior housing rated for outdoor use in variable weather conditions. It measures 6.5 × 4.5 × 3.25 in and weighs 0.7 lb.

The LED is rated for a 50,000-hour lifespan and the product is backed by a 1-year warranty.
