

Stainless Steel Machine Screws, 304 Grade, M3 x 12 mm, 1000-Piece Bag

- Manufactured from 304 stainless steel for corrosion resistance
- M3 thread diameter with 12 mm shank length
- Bulk packaged in bags of 1000 pieces
- Sized for sheet metal, trim and small hardware attachment
- Backed by a 1-year warranty

OVERVIEW

Stainless steel machine screws in M3 × 12 mm size, manufactured from 304 stainless steel. Suitable for general fastening in lighting fixture assembly, sign cabinet construction, and related commercial or industrial installations where corrosion resistance is required.

The 304 alloy provides corrosion resistance for interior and sheltered exterior work. The M3 thread and 12 mm length suit thin-gauge sheet metal, trim panels, and small hardware attachments. Supplied in bulk bags of 1000 pieces for production and service work.

Covered by a 1-year warranty.
