

Switchable Smart Film — Interior Dry Location, Custom Installation

- Applies to interior glass surfaces
- Provides on-demand opacity control
- Rated for dry area use only
- Installation location must be specified per order

OVERVIEW

Switchable smart film designed for application on interior glass surfaces. This product enables on-demand opacity control when laminated or applied to existing glazing, making it suitable for conference rooms, partitions, and other interior installations where privacy or light management is required.

Rated for dry area use only; not suitable for wet or damp locations. Installation location must be specified at time of order.
