- Motion-activated operation turns light on only when needed
- Powered by 4 AA batteries for cordless, flexible placement
- Camera-shaped housing finished in silver
- Compact dimensions of 4.5 × 3.5 × 6.5 in, 0.6 lb
- Rated for 50,000-hour LED lifetime with 1-year warranty

OVERVIEW

The W-B-SR1-W is a battery-operated, motion-activated LED light styled in a camera-shaped housing finished in silver. Designed for flexible placement without the need for hardwired installation, it is suited for closets, cabinets, entryways, and similar spaces where on-demand illumination is needed.

The fixture produces 6000K daylight-output light and is powered by four AA batteries, eliminating the need for a dedicated electrical circuit. Motion activation ensures the light operates only when presence is detected, extending battery life during periods of inactivity.

The unit carries a 1-year warranty and an LED lifetime rating of 50,000 hours.

SPECIFICATIONS

OPTICAL

Color Temperature	6,000 K
LED Lifetime	50,000 h

MECHANICAL

Product Dimensions	4.5 × 3.5 × 6.5 in
